ABOUT US.

SURKADO is a brand built on the five elements: Earth, Water, Fire, Wind, and Sky. A family company, SURKADO was designed to create a gateway between these elements via our interior surfaces. The process of working these materials was heavily influenced by our awareness of our own physicality, sureness of touch, and energy from our collection of colors.

SURKADO employees, dealers, and customers love what drives our brand philosophy and what makes SURKADO the interior surface masters. We invite you to connect with us to learn about our products.
